### Welcome to ECAA's E-Newsletter, The Spark!

This e-newsletter was created to keep members informed on the Association's activities and upcoming events in a timely manner.

### President's Message

The May long weekend is upon us which means hello summer and goodbye winter, although a true Albertan knows anything can happen with the May long weekend weather. The ECAA continues to stay busy with industry events and the planning of our AGM this month. We have completed a few code update sessions with great success in attendance and great reviews on the job being done by Don and Stan. I have attended a Masters Advisory Working Group meeting and an Electrical Technical Council meeting this month but cannot provide any further update on the progress of the CEC 23rd edition adoption and implementation due to the change in government which leaves uncertainty with ongoing issues. We will begin the task of re-establishing our contacts and relationships with the new government officials.

Darcy Teichroeb,  
PEC

The 2015 AGM is just around the corner and it looks like we will have great attendance and participation from contractors and associates. The events are planned and ready for a successful AGM and training day. I want to thank Sheri and her office team for all the hard work they have put into the planning and preparing of this year's AGM. I look forward to seeing everyone who will be attending and Thank You for your support of myself and the ECAA.

My term as ECAA provincial president will end this month at the AGM but I feel we have had a very productive year. I have enjoyed working with all our board members and office staff. We are very fortunate to have such a strong group of dedicated people in our association. The ECAA is in a very good state of affairs right now because of these people and I know it will continue with incoming board positions under the direction of our incoming president Kevin Lefebvre. It has been my pleasure and honor to represent the ECAA as president for the past year. I will continue to participate in other capacities where I can make a positive contribution.

Darcy Teichroeb, PEC, CME  
ECAA Provincial President
