President's Message

Well let's begin the May edition by wishing all of you Mom's out there a very special Mother's Day on May 9th! Being a mom is certainly no easy task and we are grateful for the opportunity to celebrate and thank you all.

We are just over two weeks away from our AGM in Kananaskis. As I have prepared a lengthy and detailed annual report, I will keep this one brief. I just really want to encourage everyone to take part in the event as best you can. We are currently facing some tighter guidelines from AHS, however we do know that the golf tournament on May 27th is sold out and that it will be going ahead as planned. Though there may be a couple of changes made to the formatting of the pairings, etc., Kananaskis has the luxury of spreading us out over two courses and will be able to better assist us in meeting those 'distancing' guidelines.

As for Training Day, all courses will be carried out virtual via zoom and therefore no changes to mention. The AGM meeting, Awards Luncheon and Gala will also be broadcasted and shared via zoom. There are currently tighter restrictions as to how many people we can have in a room at one time which the hotel is keeping us updated on. People will be able to share their reports and/or participate from their homes, hotel rooms or courtyards, etc.

Here again we are hoping that these recent restrictions are somewhat relaxed following the May long weekend as suggested by AHS; however, we will have to wait and see how the numbers look. The age limits for receiving vaccinations at this time are being dropped all the way down to twelve years old. As a result and with the recent influx of available vaccines, we should see a large increase in the number of people being vaccinated. I really do want to believe that we are in the final phase of dealing with Covid and would encourage everyone to stay strong for just a little longer.

Thank you again to Sheri McLean and her wonderful staff (Christine, Camille and Dorothy). They have done such a magnificent job of staying on top of the ever-changing restrictions and making several layers of contingency plans for each and every event.

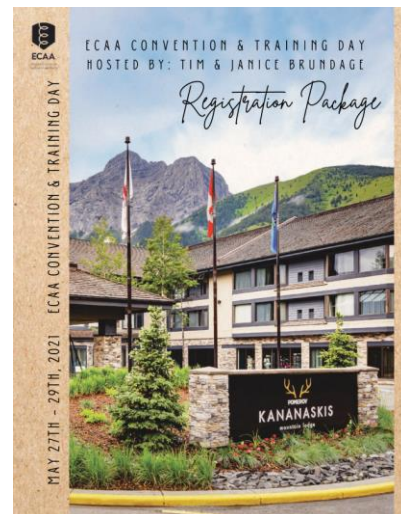

Thank you again to everyone for your ongoing support and involvement and we look forward to seeing you all in May.

Respectfully,

Tim Brundage
ECAA Provincial President

ECAA AGM & Training Day Update

2021 ECAA Convention

Registration: <https://events.ecaa.ab.ca/events/2021convention/>

Registration is open for ECAA's annual Technical Training Day & Convention.

***Proceeds from the virtual gala entertainment will be setup as a donation to support ECAA members who have struggled with Mental Health.**

These sessions will be delivered virtually*

Upcoming Training

[2021 CE Code Update Seminar Dates](#). Registration also available [online](#). For more information on code please email ecaa@ecaa.ab.ca

AHS guidelines will be followed for in person sessions. APD Points apply for PEC's.

1 day low voltage Arc Flash & Shock: Wednesday, June 16th 8:00 am - 4:30 pm

[Register Here](#) APD Points Apply. This session will be delivered virtually and instructor led using zoom.

Fire Alarm Training Course June 21 - 25, 2021. Register

Here: <https://events.ecaa.ab.ca/events/edmonton-fire-alarm-training-course-june-2021-2/>

As minimum numbers are required, please register early to avoid disappointment with course being cancelled.

For more information: [Alberta Fire Alarm Course](#)

[Fire Alarm Course Outline](#)

This session will be held in Edmonton following AHS guidelines and restrictions.

Communities of Practice. Please join the ECAA Communities of Practice for a series of CoP zoom meetings scheduled for the 4th Wednesday of every month from **8:00 am - 9:30 am**. Next session set for **May 26th** will cover the 3rd & 4th principles of lean thinking-implement flow & implement pull. Continuing on from value stream mapping and determining what the future state will look like, you will learn about:

- the things that can flow in your companies including people flow, parts flow, and information flow
- how to capture and categorize the things that are slowing flow down
- how to create pull systems to improve the flows that support improvements in quality, cost, delivery, safety, and morale (QCDSM)

Industry News

Congratulations to **High Line Electrical Constructors**. The company has been sold to Java Holdings (formerly owned by Vallard Construction). All staff and work will continue under the High Line banner.

Index for 25th Edition of Canadian Electrical Code Part 1 now available. If you previously purchased a code book and require the index, a complimentary pdf can be downloaded here: <https://ecaa.ab.ca/HotTopicDetails.aspx?id=347>

BRANDON HILL-GRAHAM MEMORIAL Scholarships; Supported by: Electrical Contractors Association of Alberta, Calgary Chapter. Contractors who have apprentices going to SAIT are asked to remind them to log

into their MySAIT account to apply for the Brandon Hill Graham Memorial scholarships. Three awards of \$1500 will be given to electrical apprentices entering 4th period. **Deadline to apply is May 30th.**

Congratulations to Luke Bibeau as the Educational Advancement Incentive Award recipient. This award is offered to a student registered at Keyano College on behalf of the Electrical Contractors Association of Alberta, Fort McMurray Chapter.

Here is a special thank you note from Luke.

To the Electrical Contractors Association of Alberta

I am both shocked and excited to be receiving such an award! When I received the email I had to message one of my teachers to confirm it was real because I was in disbelief at the time. I have never received something like this before in my life, so this is really cool for me.

I am 30 years old now and 2 years ago I decided to make a career change to the electrical industry. The electrical trade has been something that's been around me all my life as my father is an electrician. Helping him with odd jobs growing up definitely "sparked" the interest for me to pursue this career path.

Going back to school this past January for my second year of schooling made me a bit nervous, I was told second year is very demanding and one of the hardest years. Not to mention due to covid all of our teaching would be online, and I am more of an in class hands on type of learner. But it turned out really well in the end, I studied hard, and it certainly paid off. I have to thank my instructors as well for this, they made the online learning fun and enjoyable and were there at any time I had questions or needed help with something, thank you Dawn and Tim!

Moving forward I am excited to take all I have learnt in my past 2 years of schooling and apply it to my on the job training and as well return to Keyano this year for my third year of schooling. Having received this award will not only help me financially, but is a boost of confidence to me knowing that if I apply myself and study hard as I did this past semester, I can achieve the results I need to continue on in my electrical career.

Thank you ECAA for this award, I am truly honoured to be receiving it.

COAA Best Practices - Building Resilience Virtual Conference (May 18th & 19th, 2021) has announced new confirmed speakers to the conference line up including Michael Heath, Manager Contract Construction, ATCO Group and The Honourable Doug Schweitzer, Minister of Jobs, Economy & Innovation. ECAA is proud to sponsor and support this event; [click on the following link to look at the full line up of speakers and to register for the conference.](#) To view the conference agenda [click here.](#)

SkillsXhibition May 11th & 12th. ECAA is a proud supporter and partner with Skills Alberta. Skills virtual exploration of the trades; for more information click here: <https://skillsalberta.com/resources/skillsxhibition-presented-by-synchrude/>

Eric Newell "Kidz in Career's Golf Classic" Early bird registration extended until May 31, 2021.

This fundraiser is in support of Alberta youth and will be held at the Heritage Pointe Golf Club in Calgary on July 8, 2021.

This tournament has raised over \$1 million with Alberta youth being the primary benefactors of these funds. Your donation allows young people to connect to the education, skills and training they need through work integrated learning internships. This helps young people get back to work now while offering hope for their future.

And although the tournament will look slightly different this year, as we will be following AHS Covid-19 guidelines re: outdoor gatherings, we still promise you a day of fun and friendships – all in support of a great cause – Alberta youth!

Early bird registration ends May 31, 2021. For \$395/person or \$1500/team, your golf registration includes:

- 18-hole round of golf with cart
- Hot breakfast buffet*
- BBQ dinner* and prizes/awards following the golf tournament
- “Kidz in Careers” golfer gift
- Chance to win some great prizes

*Subject to COVID-19 restrictions

2021 SAIT President's Award. SAIT President and CEO Dr. David Ross presents the annual President's Awards to recognize students and student groups who make a difference at SAIT and in their communities. After a year defined by disruption, the 2021 awards also celebrate the recipients' ability to persevere and prevail when COVID-19 forced the typical post-secondary student experience to pivot fully online.

“We're proud to recognize and celebrate transformational community impact, partnership and student leadership,” says Dr. David Ross. “Our 2021 President's Awards recipients represent the resiliency and outstanding accomplishments that reflect the broader student community during this past year.”

Source: <https://www.sait.ca/about-sait/media-centre/news-and-events/news/donor-stories/2021-05-03-2021-presidents-awards-recipients-represent-student-resiliency>

The National Electrical Trade Council receives Government of Canada funding to support apprentices in the electrical trades across the country.

Mississauga, ON – The Minister of Employment, Workforce Development and Disability Inclusion, Carla Qualtrough, addressed attendees virtually and announced that the Government of Canada is providing close to \$5 million, over five years, to the National Electrical Trade Council (NETCO) for the project Online Apprentice Support Initiatives for Success (OASIS) under the Innovation in Apprenticeship Stream of the Union Training and Innovation Program.

This funding is part of the Government of Canada's \$62 million investment over five years to help develop a highly qualified skilled trades workforce and prepare Canadians to fill available jobs as the economy restarts. The OASIS project will support training in the electrical trades and prepare apprentices to succeed as trade workers. NETCO will work in partnership with several training providers in the electrical trades to support participants from communities in New Brunswick, Saskatchewan and Ontario.

FINANCIAL INCENTIVES FOR EMPLOYERS OF APPRENTICES

Below is a list of available Financial Incentives for employers of apprentices.

It is important to not only check AIT website (<https://tradesecrets.alberta.ca/>) but the Government of Alberta and Service Canada website as well. There are a lot of incentives that are not being advertised but are available. Brand new, is the funding for RAP apprentices, where the government is offering reimbursement of \$1000 for 125 hours, \$1800 for 240 hours, or \$3600 for 480 hours towards the wages of a RAP student. RAP students must be paid minimum wage, and the School Board covers their WCB.

Digital Eyestrain & It's Impacts.

We've all experienced an increase in the amount of time we're spending on digital devices. In fact, research conducted by the Alberta Association of Optometrists indicates adults in the province are spending an average of 10.5 hours a day on a digital device. That's close to all of our waking hours!

Spring Creek Mountain Village Phase One Receives First Community Certification Built Green's Communities Program Pilot well underway with builder leadership

For Immediate Release—In parallel to Earth Day, Built Green Canada celebrates the first project certification awarded through their [BUILT GREEN® Communities Pilot Program](#)—Spring Creek's Phase One of their Spring Creek Mountain Village in Canmore, Alberta.

The timing is fitting. [Earth Day](#) is an annual, worldwide event devoted to environmental action, and this year, the theme is Restore Our Earth. Alongside advocacy around methods that will capture carbon, like reforestation, this year's theme is aimed at encouraging the reduction of carbon pollution, as is critical to limiting global warming.

Clean energy is one of the key features of the BUILT GREEN® [Spring Creek Mountain Village](#); Owner and President, Frank Kernick, B of S, M.E., estimates that, on an annual basis, their geothermal heating and cooling system will eliminate 600 tons of greenhouse gas emissions. It pumps heat to and from the earth by circulating fluid through a ground loop: using the natural heat of the earth, instead of the more conventional method of burning fossil fuels for energy.

To view the complete news release click on the source below.
